

Porfin tin maneho di materia prima.....
Finally there is management of raw material

Demokrat ta boga pa tene preis pagabel pa pueblo **Democrats plead to keep prices affordable for the** **community**

Kralendijk- Den e diskushon di material pa konstrukshon ku resientemente a tuma lugá
In the discussion about materials for construction that recently took place it was
no a pone muchu atenshon riba greis ku tambe ta wòrdu usá den konstrukshon.
not too much attention put on the gravel that also has been used in construction,
Sakamentu di greis no ta kumpli ku reglanan vigente kaminda ainda ta fresku den
the taking of gravel that does not comply with the rules in effect, where still it is fresh in
memoria di pueblo kon e proyekto di airopuerto a wòrdu paralisá temporalmente pa
the memory of the community how the airport project had been temporarily paralyzed
motibu ku a saka greis ilegal. Regularmente outoridatnan ta para e trùknan ku ta
because the taking of gravel was illegal. Regularly, authorities stopped the trucks that
transportá greis, esaki ta trese frustrashon serka e doño di trùk pero tambe serka e
were transporting the gravel, this brings frustration to the owner of the truck but also to
kontratistanan.
the contractors.

Gobièrnu no tabata aktua ku man duru i a tolerá e asuntu pa no stanka e sektor di
The government did not act with a heavy hand and tolerated this business so as not to
impede
konstrukshon. Riba insistensia di partidonan di koalishon a duna FCB un buraku di greis
the construction sector. On the insistence of the coalition parties, FCB was given a gravel
den e área di 'Pasa Kontrami' pa asina por a kuminsá ku e proyekto di 101 kas pariba di
pit in the area of Pasa Kontrami so it could begin with the project of 101 house above the
e barío di Wanapa.
Wanapa barío.

E pregunta ku mester wòrdu hasí ta kon ta posibel ku ta duna tereno, pèrmit di
The question that needs to be asked is how is it possible that can give land and
construction permits
konstrukshon di 101 kas di pueblo sin ku pèrmit di saka piedra, santu i greis ta reglá. Un
for 101 community houses without regulating the permit for taking gravel, sand and stone.
gobièrnu mester mira dilanti i traha ku maneho i vishon pa futuro i si esei no tuma lugá
A government needs to look forward and work with a management and vision for the
future, if this does not happen
ta nifiká ku tin mal gobernashon.
it means that there is bad governance.

Partido Demokrat ta kontentu ku su frakshon a presentá un moshon ku ta duna [The Demokrat Party is happy that its fraction presented a motion that gives the opportunity to all owners of heavy equipment to dig gravel legally.](#)

Partido Demokrat ta aploudí e echo ku gobièrnu ta trahando riba un maneho di materia [Demokrats applaud the fact that the government is working on a management for raw prima \(delfstoffenbeleid\) ku mester indiká áreanan ku ta destiná pa saka material aki na materials \(delfstoffenbeleid\) that must indicate the areas that are destined for taking this Boneiru. E meta prinsipal pa haña material lokalmente ta pa mantené kupo di trabou, material on Boaire. The principal goal is to get the material locally and to maintain job spar divisa i mantené gastunan di konstrukshon mas abou posibel. openings, save \(divisa ?\) and keep the costs of construction as low as possible.](#)

Kas pagabel i proyektonan ku por kompetí riba merkado ta hopi importante sigur awor ku [Affordable houses and projects that can compete on the market are very important surely kosto di bida a subí barbaramente aki na Boneiru. Partido Demokrat ta deseá pa hür di now that the cost of living has risen barbarously here on Bonaire. The Demokrats desire kas di FCB keda mas abou posibel, konsiderando ku kosto di bida a subí, fasilitando FCB that the rent for FCB houses stay as low as possible, considering that the cost of living ku material di konstrukshon na bon preis mester por logra nos meta. has gone up, facilitating FCB with construction material at a good price can help achieve this goal.](#)

Awor ku krushernan a haña materia prima na un bon preis i ku importashon no ta [Now that the crushers have gotten prime material at a good price and importation is not nesesario ta spera tambe ku ta tene preis di steenslag, santu i greis na un preis rasonabel. necessary, it is expected that this also keeps the price of rock, sand and gravel at a reasonable price.](#)

Fábrikanan di blòki a anunsiá ku lo oumentá preis di blòki siendo esaki no ta nesesario komo ku e kosto pa produsí blòki no a subí. [Concrete block makers announced that they would raise the price of the blocks, even though this is not necessary as the cost to produce blocks did not go up.](#)

Finalmente Demokrat ta urgí tur krusher i fábrika di blòki pa tene kuenta ku e [Finally, Demokrats urge all crushers and block makers to take the consumer into consideration. Moderate prices will stimulate more construction which in turn will create konsumidó. Preisnan moderá lo stimulá mas konstrukshon ku na su turno lo krea mas more job openings and this will benefit our economy.](#)
kupo di trabou i esaki lo benefisiá nos ekonomia.
