

**Por saka piedra i santu na Bolivia i Roi Lamunchi
Can take stone and sand from Bolivia and Roi Lamunchi**

Kambio di lei no ta nesesario Change of law is not necessary

Kralendijk- Frakshon di Demokrat den konseho insular ta kontentu ku tur krusher tin materia Demokraft fraction in island council is happy that all crushers have raw material, that is stone, prima esta piedra i santu i granson na nan disposishon atrobe. Manera ta konosí komplikashon sand and sandstone at their disposition again. As it is known, legal complications, scarcity of raw legal,skarsedat di materia prima riba nos kosta i aktuashon severo di outoridatnan kompetente a material on our coast and severe actions of proper authorities resulted in the crushers not resultá ku krushernan no tabatin material pa mula. Esaki na su turno a resultá den skarsedat di having material to grind. This in turn resulted in a scarcity of locally produced santu i piedra lokalmente produsí. For di aña 2008 gobièrnu a stòp kohementu di piedra i santu sand and stone. Since 2008, government stopped the digging of stone and sand, this continued esaki a kontinuá te 2010 ora ku e servisionan kompetente a konsehá gobièrnu pa stòp until 2010 when competent agencies advised the government to definitively stop this activity. definitivamente ku e aktividat aki.

Leinan vigente manera Eilandsverordening Natuurbeheer (A.B2008), Ruimtelijk Laws in effect like Eilandsverordening Natuurbeheer (A.B2008), Ruimtelijk Ontwikkelingsplan Bonaire(A.B 2010), Wet grondslagen Natuurbeheer BES i tratadonan Ontwikkelingsplan Bonaire(A.B 2010), Wet grondslagen Natuurbeheer BES and international internashonal manera Cites, Spaw i e tratado di Bonn ta indiká e prosedura eksakto pa hasi treaties such as CITES, SPAW and the Treaty of Bonn indicate the exact procedure for making sakamentu di materia prima posibel. E diskushonnan di e último simannan a konsentrá riba e the excavation of raw material possible. The discussions of the last weeks concentrated on the área di Washikemba ku parse tin bon kalidat di santu i granson i komo tal deseo pa saka e area of Washikemba that seems to have good quality of sand and sandstone and so the desire material aki pa produsí santu i steenslag tabata grandi. to excavate this material to produce sand and steenslag was great.

Pa motibu di ignoransia o pa motibunan polítiko no a splika esnan ku ke a saka material na Because of ignorance or for political reasons it was not explained that wanting to excavate this Washikemba ku esaki simplemente no por pa motibu ku ta violá leinan internashonal. Tantu e lei material at Washikemba was simply not possible because it violated international laws. As well, di maneho di naturalesa komo esun di desaroyo di espasio ta leinan ku Gobièrnu i konseho the environmental management law, the one regarding development space, are laws that the insular di Boneiru a aprobá na aña 2008 i 2010. Government and Bonaire island council approved in 2008 and 2010.

Sinembargo no mester pèrdè for di bista ku ántes landsverordening grondslagen Natuurbeheer en Nevertheless, we cannot lose sight of the fact that the previous landsverordening grondslagen Bescherming Nederlandse Antillen i awor despues di e kambionan estatal Wet Grondslagen

Natuurbeheer en Bescherming Nederlandse Antillen and now after the status changes Wet Natuurbeheer BES ta superior na nos leinan lokal i ta mara na tratadonan internashonal. Grondslagen Natuurbeheer BES is superior to our local laws and is tied to international treaties.

Violashon di e tratadonan aki lo tin repercushonnan serio pa Boneiru i un impakto negativo pa Violation of these treaties will have serious repercussion for Bonaire and a negative impact on nos industria di turismo. Dunamentu di pèrmit pa saka piedra i santu di un forma irresponsabel our tourist industry. Giving permits to excavate stone and sand in an irresponsible form can por resultá ku fiskal ta duna polis òrdu pa kue trùk, loder i krusher den beslag i but e result in the prosecutor giving polis orders to take trucks, loaders and crushers in impoundment empresa. Partido Demokrat a studia e situashon i a tuma konseho serka peritonan i a skohe pa and fine the business owner. Demokrats have studied the situation and taken advice from experts atendé e asuntu aki ku kabes friu. No a permití pa pone preshon riba partido pa hasi kos and have chosen to deal with this business with a cool head. It is not proper to put pressure on a deskabeyá, pa despues henter Boneiru lamentá. party to do harebrained things, that later all of Bonaire will regret.

Partido Demokrat konsiente ku mester buska solushon pa e situashon ferfelu ku e doñonan di Demokrats are aware that we need to find a solution for this bothersome situation that the owners krusher, ekiponan pisa i kontratistanan a haña nan aden a opta pa bin ku un solushon pa korto, of crushers, heavy equipment and contractors find themselves in and have opted to come with a medio i largo plaso. E servisio di Drob a bin ku un quick scan i a determiná algun sitio ku na un solution for short, medium and long term. DROB came with a quick scan and determined some forma responsabel por saka materia prima. sites form which raw materials can be taken in a responsible form .

A korto plaso por haña piedra, santu i granson den e área di Bolivia i Roi Lamunchi, e pèrmitnan For the short term, stones, sand and granson can be taken in the are of Bolivia and Roi Lamunchi, ta kla kaba i pronto e krushernan por haña material. Partido Demokrat i su lider Robby the permits are already done and soon the crushers can get the material. Demokrat leader Robby Beukenboom ta kontentu ku a logra solushoná e situashon ku a reina sin mester a kambia lei Beukenboom is pleased that they have achieved a solution to the situation that ruled without esaki a spar tempu balioso i a evitá komplikashon legal ku lo a perhudiká Boneiru. needing to change the law, this saved valuable time and avoided legal complications that would have harmed Bonaire.
